

Unitary Councillor Report

(Snippets) Report from Cllr David Hopkins, Cllr Victoria Hopkins & Cllr Alice Jenkins – Representing Little Brickhill at MK Council

February 2020

MK 2050 - Comments should be sent to MKFutures@milton-keynes.gov.uk

In July 2016, the MK Futures 2050 Commission published its report 'Making a Great City Greater'. The report included a recommendation to prepare a Strategy for 2050 which would take a long-term view of the future of the city.

We have now published our engagement draft of the Milton Keynes Strategy for 2050 which sets the way forward for the next era of making our great city greater. People are at the heart of what this Strategy is trying to achieve. It is a strategy for everyone living in Milton Keynes today and all those that wish to live here in future.

We'd love to hear views from a wide range of people about the draft Strategy for 2050. Please share the link below with your networks and encourage them to get involved. Over the coming months, we hope to hear from as many people as possible. We will be including information about events and opportunities to get involved on the website, and on Twitter and Facebook. Please keep an eye out for updates.

www.mkfutures2050.com/strategy-for-2050-engagement-page

All comments and feedback should be received by Friday 17th April 2020. As well as the web-based version at the link above, we will also have copies of the draft Strategy for 2050 in the local libraries.

For more information, please drop us an email at MKFutures@milton-keynes.gov.uk

Snippets – Development Control (6 February)

Land At Brickhill Street, South Caldecotte, Milton Keynes, MK17 9FE - 19/01818/OUT

Description Outline Application Including Access For The Development Of The Site For Employment Uses, Comprising Of Warehousing And Distribution (Use Class B8) Floorspace (Including Mezzanine Floors) With Ancillary B1a Office Space, General Industrial (Use Class B2) Floorspace (Including Mezzanine Floors) With Ancillary B1a Office Space, A Small Standalone Office (Use Class B1) And Small Café (Use Class A3) To Serve The Development; Car And HGV Parking Areas, With Earthworks, Drainage And Attenuation Features And Other Associated Infrastructure, A New Primary Access Off Brickhill Street, Alterations To Brickhill Street And Provision Of Grid Road Reserve To Brickhill Street With Appearance, Landscaping, Layout And Scale To Be Determined As Reserved Matters

RECOMMENDATION

1.1 It is recommended that permission is refused, due to the following reasons:

1) The proposal, by reason of the total loss of non-designated heritage assets of archaeological interest, failure to ensure that consideration is given to the historic environment in informing the site layout and the quantum of development and failure to demonstrate that the benefits of the development clearly outweigh the harm, taking into account the assets significance and importance, would be unacceptable contrary to NPPF policy 197 and Plan:MK policies HE1 (F), SD1 (A19) and SD14 (C9).

2) The proposal, by reason of the loss of a significant extent of Priority Habitats and other ecological assets, and a failure to demonstrate an acceptable mitigation of biodiversity impacts on site, would result in a unacceptable impact on biodiversity assets within the application site, contrary to NPPF policies 170 (d), 174 (b) and 175 and Plan: MK policies, NE2 and NE3 and Planning Practice Guidance/ Natural Environment Guidance Paragraph: 024.

3) The proposal, by reason of failure to demonstrate provision of necessary infrastructure to mitigate the impact of the development, in particular in relation to transport, would have a harmful impact on the transport network, in terms of road, cycle and public transport provision, and would therefore fail to mitigate the impact of development, contrary to Plan: MK policies INF1, CT1 CT2, CT3, CT5 and SD14 (C.3) of Plan: MK.

East West Rail

MK Council has received notification from the Secretary of State that he has granted the Transport Works Act Order for the Western Section of East West Rail Scheme (Bicester to Bedford). The one remaining 'hurdle' relates to funding, but the Government are expected to make the Final Funding announcement early in the summer and I think we can be almost certain that this will be forthcoming.

VE DAY

75TH ANNIVERSARY

A SHARED MOMENT OF CELEBRATION

8 - 10 MAY 2020

"My dear friends, this is your hour."

Winston Churchill on VE Day.

When VE Day dawns on 8th May 2020 it will be 75 years since the guns fell silent at the end of the war in Europe. Years of carnage and destruction had come to an end and millions of people took to the streets and pubs to celebrate peace, mourn their loved – ones and to hope for the future, but not forgetting those still in conflict until 15th August when it was announced that Japan had surrendered unconditionally to the Allies, effectively ending World War II.

The 75th anniversary will provide our nation, and our friends around the world, with an opportunity to reflect on the enormous sacrifice, courage and determination of people from all walks of life who saw us through this dark and terrifying period. To commemorate this important time we are organising VE Day 75, a three-day international celebration that will take place from 8th May to 10th May 2020

Get involved in VE day 75

Bedford to Bletchley Rail - As you may be aware, a new timetable was introduced on the Marston Vale Line on 16th December; there are some significant changes to peak time services. Please find the timetable attached. This is also available on the new MVCRP website - www.marstonvalecommunityrail.org.uk

MVCRP is working with the Bedford to Bletchley Rail Users' Association to gather feedback from passengers and local residents on the new timetable to inform our six-monthly

meeting with the London Northwestern Railway timetable team on 15th January. Surveys are being distributed on peak time services this week, and the survey has been sent to all parish councils along the Line.

The survey is available at <https://www.surveymonkey.co.uk/r/SS2P9XP>. I would be grateful if you could circulate to your networks and post on social media as appropriate. Please feel free to share the posts on the MVCRP Facebook & Twitter pages - www.facebook.com/marstonvalecrp and [@marstonvalecrp](https://twitter.com/marstonvalecrp) on Twitter.

Stephen Sleight - Transport Team Leader (Rail) | Marston Vale Community Rail Partnership Officer (Bedfordshire Rural Communities Charity)

T: (01234) 832645 - E: stephens@bedsrcc.org.uk
The Old School, Cardington, Bedford, Bedfordshire, MK44 3SX.

School - Milton Keynes Council, in conjunction with the governing body of St Mary's Wavendon CofE Primary School, proposes to alter the lower age range of St Mary's Wavendon C of E Primary School with effect from 1 September 2020.

The statutory notice and complete proposal are attached and can be found on the council website at <https://www.milton-keynes.gov.uk/consultations/553>. This consultation seeks views from parents and staff directly involved with St Mary's Wavendon CofE Primary School, from other local schools and any other interested parties. We are keen to hear as many views as possible about this proposal.

Any person may support, object or make comments by emailing sufficiencyandaccess@milton-keynes.gov.uk or in writing to the Education Sufficiency department at the council address below.

The closing date for comments is 6 February 2020.

Ben Nicholson - Policy, Performance and Projects Support Officer

A packed church hall near Milton Keynes hears concerns over new Expressway road and 1 million new homes

Residents concerned about an “oven-ready” road scheme and 1 million new homes that it could usher in were urged to get involved in the democratic process at a packed public meeting.

With the general election looming next Thursday (Dec 12) campaigners with the No Expressway Group (NEG) urged scores of members of the public to put pressure on candidates over the Oxford to Cambridge road and its possible route to the south of Milton Keynes.

“It is a general election issue,” said NEG chair Olivia Field at the standing-room-only meeting at the Mary Adams Hall, in Woburn Sands, on Tuesday evening. “Hold councillors, candidates and MPs to account over this.”

The meeting was told that although the exact route is yet to be decided, it looked likely that the route would take it from the south of Bletchley, through Woburn Sands, on to Brogborough, and then beyond to Bedford and Cambridge.

Campaigners fear that the project could see the public sidelined as it is seen as being of national significance. It also forms part of a housing growth strategy in the Oxford-Milton Keynes-Cambridge Arc that could see 1 million new homes, or “three towns the size of Buckingham.”

The NEG’s Professor David Rogers said the road would form a freight route from Felixstowe port to Southampton and take 1.3 million HGVs every year, or two every minute. He said it was “oven ready” to go next year.

The campaigners denied being NIMBIES. They want to see an electrified East West Rail, social housing not “affordable” housing, jobs transferred to the north of the UK and freight moved to rail.

“Plans on this scale will destroy the sense of place of those already living here,” said Prof Rogers. “Unless you do something, this WILL happen. Tell the politicians what you think, get them to listen.”

The meeting also heard that a new branch of the NEG has been set up in Woburn Sands, as part of a growing network of resistance to the massive project.

A range of councils have opposed the scheme and Milton Keynes Council has changed its position from supporting to support conditional on the East West Rail project being electrified, plus a range of other tests.

MK Council has signed a secrecy agreement with Highways England in order to find out details of the scheme. The project has been put on hold pending the outcome of the general election under

“purdah” rules governing big announcements.

The current Terror threat level is SUBSTANTIAL

Threat levels are designed to give a broad indication of the likelihood of a terrorist attack.

LOW means an attack is highly unlikely

MODERATE means an attack is possible, but not likely

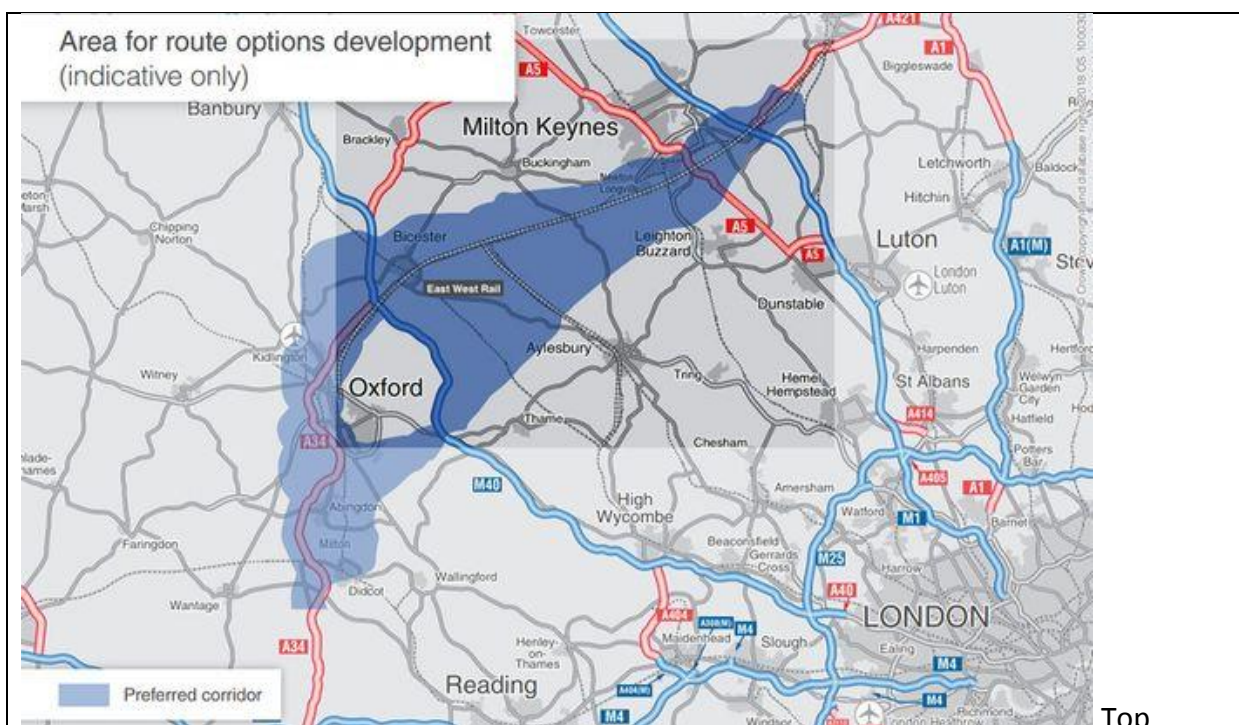

SUBSTANTIAL means an attack is likely

SEVERE means an attack is highly likely

CRITICAL means an attack is highly likely in the near future

It looks likley that the section between Bletchley & Bedford will move into the planning for the Central Section of the East West Rail scheme, in effect moving aolngside the Bedford to Cambridge development and therefore not likley to come forward before 2027. A decision on the future of HS2 is expected in March 2020.

Top academic researchers have said development of the Oxford-Milton Keynes-Cambridge arc will require a shift from road to rail.

<https://www.transport-network.co.uk/Britains-Silicon-Valley-should-be-Green-Arc/16302>

The Oxford University-led Infrastructure Transitions Research Consortium (ITRC) has developed what it said are ‘globally unique’ methods for simulating future population and housing growth, and demand for infrastructure services.

The model aims to explore how infrastructure can be provided ‘affordably, securely and sustainably’.

A major new report from the ITRC, led by the university's Environmental Change Institute, has used these methods to analyse the Oxford to Cambridge 'arc' development plans – some of the UK's largest housing and transport projects

Climate Emergency

I wonder if we might wish to consider a resolution regarding the Climate Emergency at the February meeting? I thought this might be useful for consideration when discussing the item

The impacts of climate breakdown are already causing serious damage around the world. The Special Report on Global Warming of 1.5°C, published by the Intergovernmental Panel on Climate Change in October 2018;

(a) describes the enormous harm that a 2°C average rise in global temperatures is likely to cause compared with a 1.5°C rise, and

(b) confirms that limiting Global Warming to 1.5°C may still be possible with ambitious action from national and sub-national authorities, civil society and the private sector.

If the world is to stay within 1.5°C rise, developed countries like the UK need to cut emissions faster than poorer countries and achieve net-zero carbon by 2030. Strong policies to cut emissions also have associated health, wellbeing and economic benefits.

In response to the climate threat, it is suggested that Woburn Sands Town Council also declare a climate emergency and commit to making the Council's activities net zero carbon by 2030. Below are examples of the work that the council could be doing in response to this.

- Pledge to go single use plastic free – stopped using single use plastic items ourselves
- Introduced secure bike lockers in the town
- Purchase or obtain through grant the towns first electric vehicle charging station(s)
- Require that contractors use electric hand-held tools (hedge trimmers, strimmers) and also require that they (over time and as appropriate) replace petrol powered tools with electrical versions
- Introduce a FREE water refill points along the High Street and/or recreation ground
- Recycling facilities on Town Council owned / controlled land
- Utilising biomass boiler technology as and where appropriate
- Smart metering installed on the town council electricity supplies
- Working with MKC, LED lighting installed

- Low Carbon Milton Keynes Council - is preparing an initial draft study report into the carbon

footprint of the operation of its key assets, transport and other governance operations, and WSTC could work with MKC to provide an outline (local) plan to achieve zero carbon operations

- Approached organisations / individuals to undertake a comprehensive study and report across the whole of the Council's activities, which would provide qualitative measures of the impact of those activities, and overall aggregate measures of the total impact of the Council's activities and considers climate mitigation measures
- The substantial number of High Street catering, retail and other outlets should be requested to meet the requirements of a sustainability (including single use plastics) assessment and should be required to undertake an ongoing commitment to work with WST Council to introduce further measures as and when practicable
- Encourage all community groups and organisation that we support to think about and address their input impact on climate change and offer support to help them meet their goals

- Set, as soon as possible, annual targets for quantitative measures of climate impact on all the Council's activities for the next 10 years which in aggregate amount to meeting the Milton Keynes target of net zero carbon by 2030
- Ensure that all planning comments to Milton Keynes Council are consistent with a shift to net-zero carbon by 2030
- Make decisions that discourage fossil fuel car use, redirect resources into electric vehicles, encourage walking, cycling provision and improved local rail and bus services, and supports projects that help ensure that all Woburn Sands residents can travel to work and education, and access services in an environmentally friendly way
- Ensure that all policy papers submitted to the Town Council and its Sub Committees include a Climate Change Impact Assessment paragraph
- Engage with all relevant local agencies and partners, including Milton Keynes Council, to help deliver these goals through all relevant strategies, plans and shared resources and send representatives to attend any meetings, events and partner workshops as appropriate
- Call on the UK Government to provide the powers, resources and help with funding to make this possible, and lobby local the local MP to do likewise

Fulbrook School - The proposals for change are:

- Swallowfield and Aspley Guise lower schools to become primary schools in 2022, so pupils will join at reception and continue at the schools until the end of Year 6.
- Fulbrook Middle School to become an extended secondary school in 2022, so pupils can join the school at Year 5 or Year 7 and continue there until the end of Year 11. The school will become a secondary school in 2024 when pupils in Year 5 will stay in their primary schools.
- Husborne Crawley, Ridgmont and Woburn lower schools are to work together as soon as possible as a federation with the goal of coming together as a single primary school on one site. Options for the site for the new school are still being explored at this stage but is anticipated that this will happen in 2024. Until 2024 all three schools will remain open on their current sites and pupils will continue to transfer to Fulbrook at Year 5.

There is housing growth planned near Woburn Sands, which will create the need for new

school places and this will be met by Milton Keynes Council. There is also significant growth planned for Leighton Linlade which will eventually create demand for 3,000 new school places. When pupils leave Fulbrook, they currently go on to upper schools in the main in the Leighton Linlade area. So, the proposed plan for the Fulbrook Pyramid schools will not only enable our children to attend primary and secondary school locally but will also help the Leighton Linlade schools accommodate some of their housing growth. The next step is that the plan is scheduled to be considered by Central Bedfordshire Council's Executive Committee on 7 January, who will be asked to approve community consultation on it. If this is agreed, there will be a 12-week public consultation starting in January.

The report for this meeting is being published on the council website (www.centralbedfordshire.gov.uk) and this provides more information about proposals for our school and all the others in the area.

Schools for the Future - Leighton Linlade Cluster Plan: Phase 1 (Fulbrook pyramid of schools)

Frequently Asked Questions

What will this mean for my child?

- Children currently in years 7 and 8 at Fulbrook would be unaffected if this proposal is agreed.
- Children currently at Fulbrook in years 7 and 8 will transfer to upper school at the end of year 8.
- Children currently at Fulbrook in years 5 and 6 will be able to stay on at Fulbrook to the end of year 11.
- Children currently at Aspley Guise or Swallowfield in years 3 and 4 will transfer to Fulbrook at the end of year 4 and be able to stay on at Fulbrook to the end of year 11.
- Children currently at Aspley Guise or Swallowfield in reception, years 1 and 2 will be able to stay at their current school until the end of year 6, then transfer to Fulbrook until the end of year 11.
- Children currently at Husborne Crawley, Ridgmont or Woburn in years 1, 2, 3 and 4 will transfer to Fulbrook at the end of year 4 and be able to stay on at Fulbrook to the end of year 11.
- Children currently at Husborne Crawley, Ridgmont or Woburn in reception will transfer to the new site in September 2024 (the end of year 4) and then to Fulbrook at the end of year 6, where they will be able to stay to the end of year 11.
- Children who are not yet school age including those at Aspley Guise PreSchool, Busy Bees in Swallowfield and nursery children in Woburn, Ridgmont and Husborne Crawley - This will be as for reception aged children in the chosen lower school.

What is a Federation of Schools?

A federation is where a number of maintained schools come together with shared governance or under one new over-arching governing body. This governing body becomes the accountable body for all the schools that federate and sets the strategic direction for the group.

Federation Types:

- Informal loose collaboration: non-statutory; without having to follow regulations.
- Soft federations: non-statutory; without having to follow regulations.
- Soft governance federation: statutory; using collaboration regulations (Section 26 Education Act 2002)
- Hard governance federation: statutory; established using federation regulations (Section 24 Education Act 2002)

Where is the location of the new school when Woburn, Ridgmont and Husborne Crawley come

together in 2024?

Currently site options in the local area are being considered

What Early Years and SEND provision will there be?

We are planning to provide Early Years and SEND provision locally in schools wherever possible.

Will the proposed changes impact on catchment areas?

It is not anticipated that there will be any changes made to catchment areas. However, we will review these with schools where required.

Will the proposal have any implications for School Transport provided by the Local Authority?

There are no planned changes to the home to school transport policy as a result of this proposal.

The Cold Weather Alert system is now operating. It operates in England from the 1 November to 31 March every year, in association with Public Health England. The alerts give advanced warning of adverse weather conditions that could have a significant effect on health and well-being, enabling extra precautions to be made.

Alerts are issued on the Met Office website and also sent directly to social and healthcare services in England, and Age UK, to ensure that staff are fully prepared for any cold weather periods, and those who are more vulnerable to cold weather conditions are aware and prepared.

The Cold Weather Alert Service, which provides the forecasting alerts, has two thresholds. When thresholds are likely to be met, or are actually met or exceeded, they issue a cold weather alert. The thresholds are;

- Mean temperature falls below 2 degrees Celsius for 48 hours or longer and / or
- Heavy snow and / or widespread ice

<https://www.metoffice.gov.uk/weather/warnings-and-advice/seasonal-advice/cold-weather-alerts>

Community Rail Annual Report

The Marston Vale Community Rail Partnership was established in February 2007 following the designation of the Marston Vale Line as a Community Rail Service in November 2006, and during those years has done much to increase local identification and involvement with the line, and the number of passengers using it, as well as

pushing for improved passenger facilities at stations.

A flagship project was the renovation and making new use (partly as the excellent and now well-known Tea Room) of the listed Ridgmont station building. Alongside this has been the substantial effort put into encouraging local people, groups, organisations and businesses to become more involved in raising passenger numbers and improving “the passenger experience” at stations and on trains. Which in turn has led to many people giving their time and effort to sprucing up stations, painting murals, preparing and distributing information, and of course running the Heritage Centre at Ridgmont.

It is this latter people-related part of the whole Community Rail project that has come to the forefront in the more recent past, with the DfT emphasis now on inclusion and diversity. So work continues on involving schools and colleges, promoting artistic projects for the stations, and publicising the line and train travel to parents with young families through special event trains; and new attention is being given to reaching out to minority ethnic groups and a greater range of disabled people.

While all this has been going on, revised government policies and new franchises have given the opportunity for more funding from the line’s new train operator, as well as from neighbouring operators. And we have been chosen to be the testbed for a new type of energy-efficient train formed of revamped Underground trains, albeit accompanied by some teething problems. To complement this, the CRP liaises with the East West Rail Consortium and East West Rail Alliance to help ensure the longer-term, and longer distance, future of the line and its passenger service. The future of the CRP itself should be safeguarded by granting of Accreditation from the Department for Transport, which has been prepared for over the past few months, and which will require future work (of all CRPs) to adhere to high standards.

It’s been an exciting year, and it is therefore opportune for me here to thank the CRP Officer, the CRP’s Steering Group, all the volunteers, ACoRP, all the funders and the Train Operating Company for everything they’ve done. Thank you.

Steve Mortimer, Chairman, Marston Vale Community Rail Partnership

Expressway - The anti-expressway

movement had gradually been spreading east from Oxford and environs, where they are already holding placards and blocking roads.

Little Brickhill

<https://www.noexpressway.org/> is the place to get the latest news but there is also <https://www.noexpresswayalliance.org/> and I'm not sure how the two are related.

Of recent note is the Heartlands group <http://www.englandseconomicheartland.com/Pages/roads.aspx> (a cooperative effort by local council affected by the arc) Earlier this year their Programme Director addressed the necessity for the connection infrastructure: <http://www.englandseconomicheartland.com/latest-news/Pages/martin-tugwell-blog.aspx> and funding for it to be provided in what looks to me like a little poke at central government.

But of course last autumn the National Infrastructure Commission took a veiled pot-shot at local authorities' commitment - well that's how I read it - to the arc <https://www.nic.org.uk/news/national-and-local-leadership-needed-to-meet-growth-arc-potential/>

My impression is that both sides, the LAs and the NIC, are putting some distance from the arc project in case it all crashes into an unfunded muddle (when someone realises that Crossrail and HS2 are bottomless money pits!) MKC has just taken a step backwards itself, and I'm sure there are very sound political reasons for doing so.

As soon as Highways England state the preferred route for the Expressway this autumn (if indeed they do and I wouldn't put money on it) I would expect the Winslow effect to hit the villages between there and here and Little Brickhill will once more be revolting! I think it is only the fact the people around here don't realise the enormity of the project and the horrendous damage it will do to our local environment and how it will redraw the map of North Bucks that they too don't have the placards out. But I suspect it's only a matter of time

planning-appeals.ie Town and Country Planning Act 1990

Appeal by Wavendon Properties Ltd

Site Address: Land to the east of Newport Road and west and east of Cranfield Road, Woburn Sands, Buckinghamshire, MK17 8UH

Following a High Court challenge to the Secretary of State's decision on this appeal the Court has ordered that the appeal be re-determined. This does not necessarily mean that the Secretary of State will reach a different overall decision.

I am the Case Officer dealing with the appeal. If you have any questions, please contact me.

As confirmed in the Secretary of State's letter of 16 August 2019 the inquiry will be re-opened. This will be with a different Inspector. The Inspector/Secretary of State will consider any relevant evidence previously submitted, unless it is expressly superseded by

it's originator during this 'redetermination' process.

The Planning Inspectorate, on behalf of the Secretary of State, invites you to send further representations (including any statement of case and copies of any documents to which you intend to refer) relating to the following;

- the adoption of a new local plan (Plan:MK), with the associated identification of housing expansion areas
- the announcement by the Highways England, in September 2018, that corridor B (central option) had been selected as the preferred corridor for the Oxford-Cambridge Expressway
- Changes to national policy and planning guidance

East West Rail – Timeline

What is being proposed?

East West Rail Western Section will re-establish a passenger and freight railway between Oxford, Bedford, Milton Keynes, and Aylesbury. Phase 2 involves improving and reconstructing underused and disused sections of the former railway and represents a significant piece of infrastructure investment.

Why do we need to build this?

This scheme will enhance the rail network, create more journey opportunities with reduced journey times and better connections to the Great Western, West Coast and Midland Main Line services, avoiding the need to travel via London. It will reconnect major centres including, Aylesbury, Milton Keynes, Bedford, Bicester, Oxford.

What are the main benefits?

The East West Rail scheme will support economic growth through residential and commercial development along the line of route, boosting business growth and attracting new business and inward investment. The upgrade of the route will provide additional network capacity to accommodate growth in freight and passenger markets by connecting the Oxford to Bedford railway with the Great Western, West Coast and Midland Main Lines.

Who pays for it?

The project is funded by the Department for Transport and by a £45m contribution from the East West Rail Consortium.

What is the new EWR Company? And what is their role in delivering the project?

The East West Railway Company has been formed by the Secretary of State for Transport to optimise the delivery of the East West Railway. This team reviewed the East West Rail proposals and led a value engineering and programme delivery review that identified how the value and benefits from this project can be realised as quickly as is possible. The new EWR Company will run Britain's first integrated rail operation for decades and be a separate organisation to Network Rail. The Company is looking at how the EWR route can be delivered and maintained.

How many EWR2 trains will run and to what destinations?

In addition to existing train services, there will be new services from:

Oxford and Milton Keynes; stopping at Oxford Parkway, Bicester, Winslow and Bletchley. There will be two trains each way per hour.

Oxford and Bedford; stopping at Oxford Parkway, Bicester, Winslow, Bletchley, Woburn Sands and Ridgmont. There will be one train each way per hour.

Milton Keynes and Aylesbury with stops anticipated at Bletchley, Winslow, and

Aylesbury Vale Parkway. There will be one train each way per hour.

When will construction start and trains begin to run?

Depending on funding, construction of the line between Bicester and Bletchley will start at the end of 2019 with trains operating from 2023.

Speed Reduction Plan

Please note that the website is now live and accepting applications for 20mph speed limits:

<https://www.milton-keynes.gov.uk/highways-and-transport-hub/road-safety/introduction-of-20-mph-speed-limits-into-residential-areas>

Clear Sacks

The Council is confident with the changes in the delivery method for sacks that they are now on top of the requests that are coming through, if however you have properties that have experienced issues with receiving them prior to the changes last week then please let me know as I will be happy to arrange delivery of these myself.

Tony Brown - Waste Services Officer

Milton Keynes Council, Milton Keynes Waste Recovery Park, 9 Dickens Road, Old Wolverton, Milton Keynes, MK12 5QF

- For all Serco Landscape contract works enquiries, please contact Euan Darling or Mansour Moini - Please contact the helpline via the link below for new issues.
- For Tree (TPO TCA and Insurance related) enquiries contact Robert Widd.
- For Rights of Way, please contact Rosie Armstrong or James Walsh.
- For High Hedges enquiries and development related Tree issues please contact Stephen Narborough.
- For Planning, S106, Biodiversity and Ecology issues please contact Diane Evans or Phil Snell.
- For Flood Strategy please contact Ashish Patel.

To log a new issue or enquiry, go to: <https://my.milton-keynes.gov.uk/>

Roadworks - The new interactive service allows you to search for any planned works by area, road name, ward or parish, road type or reason. You can also see the current closures and those scheduled for the next two weeks.

Area	Road name	Start Date	Start Time	End Date	Finish Time	Type
LITTLE BRICKHILL	FOOTPATH 16 LITTLE BRICKHILL	12/02/20	24 hours	12/08/20	24 hours	FOOTPATH CLOSURE (Public Right Of Way)
LITTLE BRICKHILL	FOOTPATH 17 LITTLE BRICKHILL	12/02/20	24 hours	12/08/20	24 hours	FOOTPATH CLOSURE (Public Right Of Way)
LITTLE BRICKHILL	Watling Street	03/02/20	9:30am	10/02/20	4:30pm	GIVE & TAKE
LITTLE BRICKHILL	Watling Street	03/02/20	9:30am	24/02/20	4:30pm	ROAD CLOSURE

This tool will help you check what is planned for a particular route or area so you can avoid any issues that may affect your journey. The information is updated every week. Some works may be subject to changes due to unforeseen circumstances such as a road traffic collision or incident, weather conditions or operational reasons. Check the Highways View as an

Community SpeedWatch

Further to the recent Forum meetings, we are now writing with more information about the Community SpeedWatch (CSW) scheme.

As discussed at the meeting, this is an offer for you to participate in the CSW and we realise it is not for everyone, so we'd be grateful for your views and ultimately if you are interested in participating, or not.

Intro

CSW is a joint partnership with Thames Valley Police (TVP), Milton Keynes Council (MKC), Parish and Town Councils (Local Councils). TVP provide operational support, initial risk assessment of sites, training and process the information of offending vehicles. MKC provide training and the equipment whilst Local Councils provide volunteers to carry out the CSW operations (and have an option to input the offending vehicle details into the Police National Computer).

Potential new sites for CSW within Local Council areas need to be agreed and risk assessed in conjunction with TVP. Ideally, there should be several sites within each Local Council area and the same site should not be visited repetitively on a daily basis.

When an operation is completed the paperwork, including as much information on the offending vehicles as practicably possible, should be passed to TVP via the Police Community Support Officers (PCSO) for processing. The registered owners will then receive a letter detailing the fact that their vehicle was observed to be travelling in the excess of the speed limit, location, etc. Therefore the accuracy of the recorded information is extremely important. This requires the volunteers to work as a team to ensure the data is effectively recorded on the information sheets. As mentioned above, TVP would also be interested in hearing from potential volunteers who might be interested in the role of inputting this information into the Police National Computer – please advise separately if you have anyone who may be interested in this element.

Repeat offenders will receive further action from TVP.

Where we are now

To date, MKC has provided a few sets of CSW kit for use, but has recently purchased additional sets of equipment to be used by Local Councils.

From feedback, the main issues were of not enough equipment to be shared effectively across the MKC area and having to collect and return the equipment to/from the MKC offices at Synergy Park.

With the introduction of the new kit, there's an opportunity for Local Councils to share the equipment between themselves (perhaps with one particular council acting as a 'hub'), or for Local Councils to liaise with their PCSO to decide if the equipment could be stored locally by the PCSO (subject to storage accessibility). Alternatively, you may wish to pass the equipment onto a neighbouring Local Council in a 'daisy chain' style operation to share the resource on an as and when you are able to run an operation.

'Drop-in' session

We realise it's easier to see how the equipment and operation might run in practice, so we're looking to run a 'drop-in' session for you to see the equipment and how it works.

This has been arranged at MKC offices at Synergy Park on Wednesday 18 September 1 – 4pm.

Please let us know if you are likely to attend the drop-in session, if you are already familiar with the scheme or not interested in moving forward with CSW.

Additionally, if you are interested in continuing with CSW or would like to come on board with the scheme, we would further welcome your views on how you think the transfer of the kit would work best for you – please advise us by email to road.safety@milton-keynes.gov.uk.

Additional info

At the recent Forum meetings we were asked a few questions and we have checked these with TVP here:

Numbers of notices issued – as at July 2019 6,517 letters have been issued across TVP area with 66 from SpeedWatch operations in MK.

The safety of volunteers – This is part of the TVP risk assessment and the aim is to reduce the risk to volunteers operating in line with our protocols and guidelines. As a general rule it's strongly advised that volunteers not to get into any abusive conversations with members of the public.

Little Brickhill

TVP public liability insurance also protects the volunteers as stated below (from the Briefing notes):

Insurance

The Thames Valley Police are insured for the following:-

- Protection of the equipment in case of damage or loss
- Protection of the users
- Protection against damage/loss to third parties by the equipment users

Thames Valley Police Insurance will cover all volunteers and equipment providing they have been fully trained and briefed by the Neighbourhood Officer and are acting in line with our protocols, risk assessment and briefing document. A Community SpeedWatch Service Level Agreement must be signed by each volunteer. This will be retained by the Neighbourhood Officer to validate Insurance.

Finally, we've also attached full information on the scheme from TVP.

CHANGES TO THE COUNCIL’S SENIOR MANAGEMENT STRUCTURE

Our current three directorate model plus small ‘corporate core’ was put in place four years ago. While this has helped teams share some closer practices and standards, we’re yet to achieve our ambition for fully joined up thinking and working across the whole organisation. This can be frustrating for us, for councillors and for service users.

A new senior management structure is being developed that will help us operate more effectively as one council. The proposals are:

A new Deputy Chief Executive role will lead our critical support services, as well as a number of other business areas.

Instead of the current structure of three Corporate Directors and ten Service Directors, services will be led by nine Directors, who would all be regarded as ‘chief officers’ and full members of our Corporate Leadership Team (CLT). As you may be aware Duncan Sharkey

has left the Council and we will not be replacing either his former role (Corporate Director – Place) or the role of Corporate Director – People.

The corporate core would be replaced with a new Chief Executive’s Office, led by an Assistant Chief Executive (replacing the current role of Service Director – Policy, Insight and Communications), whose focus will be on improving organisational effectiveness and performance. Public Health will move into the Chief Executive’s Office.

Subject to political agreement, the new structure could be in place by early March. The CEO (Michael Bracey) will share full details then, including a detailed breakdown of who will be leading on specific areas.

Corporate Leadership Team - March 2019

Chief Executive - Michael Bracey, Head of Paid Service
Director - Health and Social Care Integration - Jill Wilkinson
Director - Finance and Resources - Steve Richardson
Director - Law and Governance - Sharon Bridglalsingh

Decision-making in a Pre-election Period

Executive Summary

1. Purdah applies only to ministerial government departments, and does not prevent local councils or other public authorities outside of central government from making decisions during the pre-election period.
2. However, there are other rules relating to the extent to which certain decisions or actions can be publicised during a pre-election period, or the manner in which any publicity should take place.

The Rules

"Purdah" is a political convention originating in Whitehall, which is not codified in law. Purdah is often unhelpfully used to describe the rules relating to local government publicity during a pre-election period (see below).

In principle it reflects some common sense propositions:

1. Avoiding active engagement on politically sensitive matters in pre-election periods.
2. Ensuring the governing party does not:
 - a. gain unfair electoral advantage, or
 - b. commit successors to significant decisions.
3. Maintaining the impartiality of Officers during a period of potential transition.

Local Government

All councillors have a normal, and legitimate, political predisposition, and there is no reason (without further evidence) for concluding that during a pre-election period this is more likely to lead to a closing of minds than would otherwise be the case (R (Lewis) v Persimmon Homes Teesside Ltd [2008] EWCA Civ 746).

Section 25 of the Localism Act 2011 recognises the political realities. It states that a decision-maker is not to be taken to have had a closed mind, or been tainted by bias, in making a decision merely because they had previously indicated (directly or indirectly) a view on a matter relevant to that decision.

In essence it is business as usual but with the application of good judgement in controversial matters.

The pre-election Period and Publicity

Local authorities in England and Wales are under a duty to have regard at all times to the Code of Recommended Practice on Local Authority Publicity (the Code) (issued under sections 2 and 4 of the Local Government Act 1986). The latest version of the Code that applies to local authorities in England was published on 31 March 2011.

Paragraph 34 of the Code in England states that, during the period between the notice of an election and the election itself (Dates to be inserted) local authorities should not publish any publicity on controversial issues or report views or proposals in such a way that identifies them with any individual members or groups of members. Unless it is expressly authorised by statute, publicity relating to individuals involved directly in the election should not be published by local authorities during this period although it is permissible for them to publish factual information identifying the names, wards and parties of candidates at elections.

Travellers - MK Council action

If an encampment is on public land (land owned by MK Council, MKDP or The Parks Trust) MK Council will visit the site quickly to assess the situation and gather any evidence needed.

Police responsibilities

MK Council work closely with Thames Valley Police to agree the best way forward on unauthorised encampments. The police may use powers under Section 61 of the Criminal Justice and Public Order Act 1994 to remove trespassers only if there is a significant impact to the local community or other users of the land, impact upon the land, a significant increase in local crime directly attributable to the encampment, or a risk to life. The police are also bound by the Human Rights Act. It is for the police alone to decide whether Section 61 should be used.

Dealing with anti-social behaviour

While many unauthorised encampments are short and cause minimal disruption, others can have a high impact on the local community.

Report a crime associated with an encampment to Thames Valley Police at www.thamesvalley.police.uk or on 101

Milton Keynes Council and Thames Valley Police will take action against individuals responsible for anti-social behaviour, working together to consider what kind of action is best for each situation

Report an unauthorised encampment to MK Council at www.milton-keynes.gov.uk/pay-report-apply/report-it
