<p>10. To discuss any Highway issues: 3526</p> <p>It was noted that Cllr K Morgan and the Clerk met with MKCC Highways on the 9 December 2024 and the following suggestions for slowing traffic movements through the village are noted below:</p> <p>10.1 – New LADS sign - Proposed change: signage to state, 'Access to village centre and Great Brickhill only STRAIGHT ON' and 'Woburn, Milton Keynes and all other routes TURN RIGHT.'</p> <p><i>Following discussion at the Parish Council meeting it was considered that the above proposal would have a positive impact for Little Brickhill, and the Clerk was asked to response to MKCC (Highways Team) to request confirmation that funding will be available to complete this item.</i></p>	Clerk

<p>10.2 – Improve existing gateway feature as you enter the village from the A5 northbound - new signs potentially depending on budget availability. No red coloured surfacing will be installed due to the cost and ongoing maintenance cost to the Council.</p>	
<p><u>Following discussion at the Parish Council meeting it was considered that the above proposal would have a positive impact for Little Brickhill, and the Clerk was asked to response to MKCC (Highways Team) to request confirmation that funding will be available to complete this item.</u></p>	Clerk
<p>10.3 – Informal crossing point opposite playground - MKCC explained that it was not possible to upgrade this to a zebra, due to the significant cost and how the numbers crossing would not meet the requirement for a zebra. Additional warning signs have already been put in place advising motorists of the crossing point.</p>	
<p>Cllr K Morgan made the following suggestion.</p>	
<ul style="list-style-type: none"> • Would it be possible to install an additional warning sign on the right-hand side of the carriageway in line with the existing one. I believe this would increase awareness of drivers to the hazard and they would adjust their speed accordingly. Note: It could actually be attached to the existing street lighting post that in that location to save money. 	
<p><u>Following discussion at the Parish Council meeting Clerk was asked to response to MKCC (Highways Team) to request consideration of this change and confirmation that funding will be available to complete this item.</u></p>	Clerk
<p>10.4 – Visibility issue as you exit Great Brickhill Lane onto Watling Street - With parked cars on Watling Street, it does provide limited visibility when motorists look to their left. Possible waiting restrictions (DYL's) would help improve visibility, but there would be a high number of objections to this from residents. There is no history of collisions at this junction. Installation of safety railings on the footpath in front of Chew Cottages and Wisteria House to discourage this practice. Looks like there are services in the footway, which might be an issue. I will look into this prior to making a decision on what is the best course of action.</p>	
<p>Cllr K Morgan made the following suggestion.</p>	
<ul style="list-style-type: none"> • In my opinion this is this biggest road safety issue we have in the village. Although we had no collisions, we have had lots of near misses due to limited visibility at the location. 	
<p>Agreed you will have some opposition from residents in the area I am sure they will be greatly outnumbered by people welcoming the intervention.</p>	
<p>I take the point about services in the footpath, but this could be overcome by bolting surface plates that the railing could be fitted to.</p>	
<p><u>Following discussion at the Parish Council meeting Clerk was asked to response to MKCC (Highways Team) to request consideration of this change and confirmation that funding will be available to complete this item.</u></p>	Clerk
<p>10.5 – Speeding issue as vehicles exit the village - MKCC to look at relocating the existing national speed limit sign, which might deter speeding. MKCC also advised the PC to reduce the trigger speeds for both existing SID's.</p>	
<p><u>Following discussion at the Parish Council meeting it was considered that the above proposal would have a positive impact for Little Brickhill, and the Clerk was asked to response to MKCC (Highways Team) to request confirmation that funding will be available to complete this item.</u></p>	Clerk

<p>10.6 - Install new SID on Gt Brickhill Lane - <i>It was agreed that a new SID as vehicles enter the village from Gt Brickhill Lane would be of benefit.</i></p> <p><u>Following discussion at the Parish Council meeting it was considered that the above proposal would have a positive impact for Little Brickhill, and the Clerk was asked to response to MKCC (Highways Team) to request confirmation that funding will be available to complete this item.</u></p>	Clerk
<p>10.7 - Remove existing sign and post on Gt Brickhill Lane - <i>Playground warning sign no longer required, as the playground is not in use.</i></p> <p><u>Clerk to write to MKCC (Highways) agreeing to this suggestion.</u></p>	Clerk
<p>10.8 - New gateway feature and speed count - At the meeting, a new gateway feature similar to the one shown below in Sherington was mentioned as an option. MKCC will also arrange for a speed count on Gt Brickhill Lane in the new year to get an idea of current speeds.</p> <p>Cllr K Morgan made the following suggestion.</p> <ul style="list-style-type: none"> I think the gateway similar to that one in Sherington would be suitable but would like to suggest that we install a planter in front of it paid for by the Parish Council which would enhance the look of our village. <p><u>Following discussion at the Parish Council meeting it was considered that the above proposal would have a positive impact for Little Brickhill, and the Clerk was asked to response to MKCC (Highways Team) to request if funding or any grants are available to complete this item.</u></p>	Clerk
<p>10.9 - November 2023 Incident at the A5 slip road – National Highways have provided MKCC with an initial design showing proposed improvements to the junction and MKCC have provided feedback on this option. It was noted that there are still instances of vehicles entering the A5 the wrong way.</p> <p><u>Confirmation received from MKCC (Highways) 29/01/25 that the only recent email they have had from National Highways is with regards to carrying out some surfacing works within their proposed scheme. They have not been informed by them that the scheme will go ahead next financial year yet.</u></p>	
<p>10.10 - Damaged / Missing Road Sign as you exit the A5 to Woburn and Little Brickhill / Great Brickhill.</p> <p><u>MKCC have now confirmed that it is the responsibility of Highways England to replace these signs and will consult with them to make sure that the job is completed when the exit junction safety repairs are undertaken. No change.</u></p> <p>10.11 – (item 16.2 of minutes 06/03/23) - Great Brickhill Lane Pot Holes - Bucks CC have confirmed the road is inspected on a regular basis. Cllr D Hopkins has reported this problem to Bucks CC again, but the same response has been received that it does not still meet the criteria yet. Monitor at the next <u>Parish Council meeting.</u></p> <p>10.12 – Speed Indicator Devices – Clerk confirmed that Swarco have confirmed that the 2 SID's would have their annual service on Friday the 7 February 2025 and that he has asked that they are set to operate at 26 MPH.</p>	
<p>11 – To discuss the Future of Roundacre Field: 3527</p> <p>Cllr K Morgan presented the following suggestion for Roundacre Field.</p> <ul style="list-style-type: none"> Since Tall Timbers and Pinehaven were demolished and rebuilt around 12 to 14 years ago there has been 22 new builds constructed in Little Brickhill all of them valued at over half a million pounds most substantially more than 1/2 million. 	

- Wyness Avenue which most people would consider our affordable housing area in the village is no longer affordable. The last house I am aware that was sold in Wyness was on the market for £330,000.
- We have a generation of young people who if they want to get on the housing ladder will have no option but to move away, leaving Little Brickhill a middle class, middle aged Getto.
- In 10 years', time we will not need a school bus as we will not have any children living here.
- I would therefore like to propose that the parish council explore the possibility of building 10 shared ownership semi-detached properties that is 5 units on roundacre, which will give our young people the opportunity to both enter the housing market and stay in the area if they so wish.

It was agreed that we need to undertake more research (housing needs survey) on this as it was felt that villages would prefer the field to stay as open space for residents to use and improvements made as per the application for lottery funding that was not successful last year.

Further discussion to be held at the next Parish Council meeting.

We have a private drive due to us taking half the garden away, and people are parking there, typical situation is district nurses are visiting 4 times a day to number 3 High View and they have been parking on our drive, the residents of number 2 have 4 cars parked, maybe they could be told to limit it to 2 cars only, I know parking is problem everywhere but it is annoying having them constantly turning and parking . If it is possible to check with MKCC who should use it and maybe you could tell Wyness Ave resident to stop using it, many thanks. <p><u>Ward Councillor, David Hopkins has requested help and advice on this query from MKCC Housing department.</u></p> <p><u>Clerk also confirmed that a representative from the MKCC Housing department had offered to meet in the village, date to be arranged.</u></p> <p>14.2 – Parking Issue – It was noted that there is an issue with cars damaging the grass verge outside the apartments. <u>Clerk to report this to MKCC.</u></p>	<p>Clerk</p> <p>Clerk</p>
